HEALTHCARE

NITRC*glide*

The comfortable alternative
to underarm crutches

The orthopaedic knee walker
NITRO GLIDE

Injuries, strain or fractures in the area of the lower thigh, ankle or metatarsal can significantly limit freedom of movement.

In such situations our extremely agile **Nitro Glide** can offer an excellent solution. Designed as a knee walker, it enables you to **move around quickly and safely**, even when your legs are impaired.

Stable, adjustable handlebar with manual and parking brake

Removable basket for easy transport of items

Ergonomically-shaped knee pad

Corrosion-resistant, robust frame and sporty design

Smartsoft tires for a smooth ride

Holders for easy transportation of the crutches

INTENDED USE

After foot injuries, for example, with dislocations, sprains, fractures, or injuries in the leg, foot or ankle area.

As relief for temporary restrictions on the foot or lower leg, such as inflammation or swelling.

During the rehabilitation phase, after operations on the leg, foot or ankle.
